## **City Urges Drivers to Follow Alternate Parking Tonight as the Winter Storm Continues into Monday**

City of Duluth snow plow crews have been trying to keep the main streets and thoroughfares open while the storm is in progress but due to continuing snowfall and strong winds drifting has been occurring. We want to again remind motorists to park on the even side of the street this evening allowing snow plow operators the ability to clear streets of snow during the night and allow emergency vehicles to get through.

Motorist should demonstrate caution as the morning commute may be difficult as snow is predicted throughout Monday morning.
