

Commercial Inspections Energy Commissioning Completion

Project Name:	_____	Permit No.:	_____
Project Address:	_____		
Design Professional:	_____		

Pursuant to Minnesota Energy Code 1323, Commissioning is required for this project. This form is to certify that the required HVAC and Electrical Commissioning has been completed in accordance with the specific provisions of the Minnesota Commercial Energy Code, per the selected compliance path.

Select compliance method for project design per construction documents.

- ASHRAE 90.1-2016 Standard Method Compliance and Completion per Section 6.7.
- IECC Prescriptive Method Compliance per Section 408.

I hereby certify that required HVAC and Electrical Commissioning is complete; that required testing procedures and protocol have been followed; that discrepancies have been corrected; and that the required HVAC and Electrical Commissioning process has been accomplished as required by the 2015 Minnesota State Building Code, MN Rule Chapter 1323 Commercial Energy Code.
