SUBJECT: City asks residents to conserve water

BY: Pakou Ly

City asks residents to conserve water

The City of Duluth is requesting that all residents and businesses help conserve water. City staff at the Arlington Pump Station on Central Entrance is currently working to repair a broken pipe. This impacts the station's capacity to pump water throughout the city including the Miller Hill Mall area. City staff are working to expedite repairs and estimated time for completion is unknown at this time.

In the meantime, the public is requested to conserve water and restrain from using appliances such as dishwashers or washers, and running water for long periods of time. The City thanks the public for their patience and cooperation.

For more information, please contact Howard Jacobson, in the Public Utilities Department, at 730-4061.
