East Superior St. Public Ramp Facelift on Schedule

[Duluth, MN] – Despite cool, wet weather last week, the concrete repairs taking place in the East Superior Street Public Ramp have been progressing according to schedule. Through Wednesday, October 17 of this week, the ramp will continue to be open for public parking via the entrance at 115 East Superior Street. The ramp will close to new vehicles sometime Wednesday afternoon, and all vehicles must exit by midnight that day.

The ramp will fully close on Thursday morning, October 18 in order to facilitate a thorough cleaning of the facility. This temporary full closure is anticipated to last about one week.

Overflow parking will be available in the Medical District Ramp at 302 East First Street and the Technology Village Ramp at 14 East First Street.
