**Public asked to conserve water in Duluth's Lakeside neighborhood due to water main repairs**

[Duluth, MN] - The City of Duluth Public Works and Utilities department is currently working to repair three water main breaks located on London Road, Tioga Street, and Jay Street. The City is requesting residents who live in the area between 35th Ave East and 60th Ave East to conserve water today, May 5th. The water conservation request does impact the entire Lakeside neighborhood.

The estimated completion for the repairs is the end of business day today barring no other complications. The City thanks the public for their cooperation and patience.
