SUBJECT: Traffic Signals Under Repair on 3rd Ave West at 1st and 2nd Street Intersections

BY: Pakou Ly, Communications Office

Traffic Signals Under Repair on 3rd Ave West at 1st and 2nd Street Intersections

[Duluth, MN] - As the public commutes into and out of downtown Duluth today, you may experience some back ups. Temporary stop signs have been placed at 1st and 2nd Street intersections of 3rd Ave West. The traffic signals are not working due to a contractor accidentally hitting the power line that feeds the signals. Repairs will take 1-2 days.

Please use caution as you approach these intersections and stay alert to emergency vehicles as the emergency pre-emption system is also not operable.
