SUBJECT: Friends of the Duluth Public Library to host Nostalgic Newsstand Vintage Magazine Sale Saturday, May 6

BY: Elizabeth Spehar

Duluth, MN—The Friends of the Duluth Public Library will be hosting the Nostalgic Newsstand Vintage Magazine Sale at the Main Library (520 W. Superior St.) on Saturday, May 6 from 10 am to 4 pm in the library's Green Room.

This event is a rare opportunity for history buffs, artists, and those who are simply curious to browse many decades' worth of popular magazines, in their well-preserved entirety. The magazines will be available for purchase at 4 magazines for \$1 and bound sets for \$3.

The magazines have been carefully cataloged and stored and are in good condition. In all, there are 16 titles spanning three centuries included in the sale. *Cornhill Magazine*, a Victorian literary magazine, reaches furthest back in time with the oldest issue dating back to 1860, the first year of its publication in London, England. There are more modern selections available as well, such as *Sports Illustrated*, *The New Yorker*, *Sunset Magazine*, and *Seventeen*.

The library will continue to retain and make physical copies available of the periodicals it has offered over the years, but many periodicals—both current issues and magazine archives—are now available digitally. The magazines included in this sale are available in their entirety digitally and this factored heavily in the decision to offer them to the public. Local History Librarian, Gina Temple-Rhodes, is part of the team in charge of the project to manage the library's periodicals. Temple-Rhodes hopes the magazine sale will not only be a fun opportunity to browse and step back in time, but that it will remind people of the variety of resources the library has to offer. "People may forget that we hold all of these historic magazines and historic materials. These magazines are like time capsules that offer a glimpse of what life was like in decades past. The beautiful covers, the ads and articles—paging through them is a trip back in time."
