PWU/FLEET/PURCH DS:cp 10/30/2008

STATEMENT OF PURPOSE: This resolution will authorize the purchase of a portable asphalt reclaiming/trenching machine with detachable containment system and water system from Asphalt Zipper, Inc. for the street and park maintenance division in the amount of \$116,372.55.

Asphalt Zipper, Inc., is the sole manufacturer of the Asphalt Zipper bucket-mounted portable asphalt pulverizing/recycling/trenching machines.

The Asphalt Zipper is a compact pavement grinder which will be used to repair short sections of streets. It will be used to level out certain uneven street sections before they are overlaid. It will also be used to re-grind the asphalt millings on some of our streets so they can be re-graded, instead of our current costly procedure of asphalt patching.

Asphalt Zipper, Inc. is located in American Fork, Utah.

Requisition No. 08-0634
