STATEMENT OF PURPOSE: This resolution will allow on-street parking on Morley Parkway from Snively Road to Leicester Avenue. The rescinded resolution, 08-0396, was passed on July 21, 2008. The city administration opposes this resolution because the no parking zone has already been established with council approval, the street is not wide enough to comply with state fire code if on-street parking is allowed, and on-street parking will make snow removal more difficult.
