STATEMENT OF PURPOSE: The reconstruction of Woodland Avenue from Kent Road to Arrowhead Road is one of the 2009 municipal state aid projects (S.A.P. 118-157-020). An old Qwest line is located under Woodland Avenue above the location where a number of new utility lines will be placed. Staff has determined that the safest and most cost effective way of resolving the construction issues involved is to remove the old Qwest line, put up a temporary line during construction, and subsequently place a permanent line in the sidewalk adjacent to Woodland Avenue.

This resolution authorizes an agreement which provides for the placement of a temporary overhead conduit during construction at a cost not to exceed \$210,010, paid for by MSA funds. Qwest, at its cost, will place new cable under the sidewalk adjacent to Woodland Avenue.
