

PUBLIC SAFETY COMMITTEE

09-0267R

RESOLUTION REQUESTING PARKING COMMISSION REVIEW OF PARKING RELATED ITEMS AT VARIOUS AREAS, WITH APPROPRIATE RECOMMENDATIONS BROUGHT BACK TO COUNCIL FOR CONSIDERATION.

CITY PROPOSAL:

RESOLVED, that the city council requests that city staff review potential parking related issues, refer them to the parking commission for study and recommendation and bring appropriate recommendations back to council for consideration.

The following items shall be considered:

- (a) Time limits on parking meters of low usage;
- (b) Resolution 08-0454, which established parking meters on Second Street between Fourth Avenue West to Fourth Avenue East. These meters would likely produce little revenue and would reduce the number of driving lanes from three to two;
- (c) Meter placement on London Road east of Tenth Avenue East near the Rose Garden and Leif Erikson Park; Junction Avenue north of College Street; Harbor Drive; the east side of Third Avenue West between Second Street and Third Street;
- (d) Review time limits on meters in Canal Park and enforcement of the sculpture lot;
- (e) Review policy and use of Lot A near Playfront Park for efficient and

fair use during DECC construction.
