Auditor

STATEMENT OF PURPOSE: In January, 2007, the city entered into a consultant agreement with Krech Ojard to provide final design, contract documents, bidding and construction administration for the East Duluth vehicle storage facility, which was to be located at 68th Avenue East and Superior Street. The proposed site for this facility has now been relocated to the Morningside Pit area.

This resolution would authorize Additional Services Directive No. 1 to Contract No. 20308 with Krech Ojard & Associates for additional professional services in conjunction with the East Duluth vehicle storage facility. These services would include: site survey work, civil engineering and additional architectural design to create new bid documents and comply with new site criteria and design elements.

In the past, some of the site preparation and survey work would have been done in-house to save on costs, but due to time of year and staffing levels this is not possible for this project.
