STATEMENT OF PURPOSE: As part of the preservation project proposed to take place in the fall of 2009, the opportunity exists to establish a bicycle lane in each direction on the segment of Kenwood Avenue from Skyline Parkway to Arrowhead Road. After a review of the existing pavement width and traffic counts it was determined that Kenwood Avenue has adequate capacity to accommodate the bicycle lanes if the number of traffic lanes is reduced from four to two lanes in each direction with left turn lanes as appropriate. The bicycle lanes will be established by applying the appropriate paint striping and other pavement markings.
