STATEMENT OF PURPOSE: Pursuant to resolution 08-0573 adopted September 22, 2008, the city council approved an agreement with the state of Minnesota department of employment and economic development's job service to provide services to dislocated workers in the city of Duluth. While the state has been performing the services under the agreement, upon recommendation by the attorney general's office, the state has not executed the agreement, even though it is in the form which they have executed for many years. The concerns of the attorney general's office regarded liability issues such as a provision in the agreement which required the state to waive any immunities it has. The contract term and work under the agreement is now completed. The city attorney's office and the attorney general's office have negotiated the addendum to be approved pursuant to this resolution. Once this is approved, both the agreement and the addendum will be signed, and the state will receive payment for services satisfactorily performed.
