STATEMENT OF PURPOSE: This resolution authorizes the city to access internet bandwidth provided through a state of Minnesota connection accessed through the county's network. This eliminates the need for the city to locate and purchase separate internet bandwidth. The city currently needs to acquire additional bandwidth and this arrangement is the most cost effective and satisfies the current needs of the city. This agreement will run through December 31, 2010, and is eligible for consecutive one year renewals subject to review by the city and county.
