STATEMENT OF PURPOSE: The purpose of this resolution is to approve an amendment to the guidelines for the city's private sanitary sewer service grant program to allow a higher rate of reimbursement for re-lining of existing sewers as opposed to open-cut replacement of the existing lines (80% of \$5,000 vs 80% of \$4,000), to generally prohibit open cut replacement in streets where street assessments are still being paid and to allow property owners to perform their own sanitary sewer replacements but not allow their "sweat equity" to be eligible for grant funding.
