

PUBLIC WORKS AND UTILITIES COMMITTEE

10-0345R

RESOLUTION AUTHORIZING AGREEMENT WITH ARSHIA KHAN AND  
IMTIAZ MOHAMED TO ALLOW CONNECTION TO WLSSD'S LAKESIDE  
INTERCEPTOR.

CITY PROPOSAL:

RESOLVED, that the proper city officials are hereby authorized to enter into an agreement, a copy of which is on file in the office of the city clerk as Public Document No. \_\_\_\_\_, with Arshia Khan and Imtiaz Mohamed allowing them to connect their property located at 2732 London Road to the Western Lake Superior Sanitary District's Lakeside interceptor, subject to the approval of the district and setting forth conditions therefore.

Approved:

Approved for presentation to council:

\_\_\_\_\_  
Department Director

Attorney

\_\_\_\_\_  
Auditor

STATEMENT OF PURPOSE: The purpose of this resolution is to authorize an agreement with Arshia Khan and Imtiaz Mohamed, husband and wife, which would allow them to connect their private sanitary sewer service to WLSSD's Lakeside interceptor.

These folks own a home at 2732 London Road which is in need of a new sanitary sewer connection but unfortunately, there are no city mains in close proximity to the property and the cost of reaching the nearest city main would be prohibitive.

The sanitary district's Lakeside interceptor runs very close to their home and the cost of connection to it would be practical. However, the district has a policy of not allowing private homeowner connections directly to their interceptors and normally they would require that the property owner connect through a city main. Because of the practicalities involved, the district is willing to make an exception to their policy in this case, but only if the property owners agree to make their connection subject to the jurisdiction of the city's system, in the same manner as if they were connected to a city main, and waive any liability on the part of the district or the city for any problems, such as odor and back ups, resulting from being allowed to make the connection.

The agreement approved by this resolution accomplishes those goals and will allow them to connect to the district's interceptor.
