STATEMENT OF PURPOSE: The purpose of this resolution is to authorize a modification of the form of the contract with CRW Systems approved pursuant to Resolution No. 10-0213 to clarify the rights and responsibilities of the parties. The revised draft more clearly sets forth what the "deliverables" are under the agreement, specifies more exactly, the dates upon which those "deliverables" are to be delivered, more clearly specifies the terms and conditions under which payments are due to the contractor and otherwise clarifies the formal obligations of the parties so that both will have more objective standards for their performance under the agreement.

The product and services to be delivered as well as the contract price is not materially changed.
