STATEMENT OF PURPOSE: This resolution has been approved by the city engineer and is recommended for approval. Reconstruction of Anderson Road from Haines Road to Chambersburg Avenue will take place in 2011. Anderson Road will be reconstructed to a width of 26 feet, including two driving lanes and concrete gutters. The narrower pavement will not allow enough room for on-street parking. This was discussed at the last neighborhood meeting, at which the majority of the residents indicated that they preferred the narrower width and resulting slower vehicle speeds.
