STATEMENT OF PURPOSE: This resolution modifies the existing street light utility fees to adopt the new rates for both residential and nonresidential customers. When the utility was created in 2008 by Ordinance No. 9931, a single monthly rate was set for all customers whether residential or nonresidential, with the intent of analyzing the rates further to establish nonresidential rates. The rates are the result of that analysis and were presented to the city council at a finance committee meeting on November 22, 2010.
