STATEMENT OF PURPOSE: This resolution will authorize an agreement with Lake Superior Consulting, LLC, for professional engineering services to perform construction engineering of the Great Lakes Gas Transmission Interconnect Regulator Station Upgrade. The construction engineering services required for this project include reviewing department welding procedures, reviewing welding activity, coordinating non-destructive radiographic testing of welds, providing visual inspection of welds, designing and executing hydro testing of the new installation, designing and executing purging and loading to place the new installation in service and providing construction inspection as needed. Lake Superior Consulting, LLC, performed the engineering design of this project and is the most familiar with the project to provide the most economical construction engineering services. It is recommended that the City enter into an agreement with Lake Superior Consulting, LLC based on previous experience with this firm and the cost savings of having a local firm on site when needed. Total amount

for the services requested is \$56,061.00. The working fund will be the Gas Utility Fund 520-500-1905-5535, City Project No. 0888GS.
