Attorney

Approved:

  
Auditor

STATEMENT OF PURPOSE: This resolution authorizes the acceptance of a donation in the amount of \$12,500 from the Hank Jensen Memorial Golf Tournament Board to be used towards the construction of a new tournament pavilion at the Enger Park Golf Course. This project is a joint venture between the Hank Jensen Memorial Golf Tournament board, Enger Golf management and maintenance staff and the city of Duluth, facility management department of public administration.

This donation will cover approximately 30 percent of the cost of construction a permanent replacement to using tent structures to provide banquet and social spaces during tournaments and league play. The total estimated cost is \$37,500. The balance of the cost and the work force labor to construct is being covered from the facility management operating budget. The golf course labor force will perform grading and excavation duties to assist in cost reduction. This structure will permanently replace damaged tents (wind storm in Fall of 2010) and eliminate the need for additional tent rental, saving an annual operating expense of approximately \$3,750 for additional tent rental and \$12,000 cost for a permanent replacement for the damaged tent.
