STATEMENT OF PURPOSE: This resolution authorizes a contract with Engle Fabrication, LLC, d.b.a. Centerline Tank and Trailer Manufacturing for the refurbishing of a water tank and sheet metal on street flusher truck unit 3857 in the amount of \$52,224.47, payable from the capital equipment fund. The purpose is to retrofit an existing truck in lieu of purchasing a complete replacement vehicle. This third retrofit will make all three trucks uniformly equipped.

The original request for bid was posted March 18, 2011, on the city's website. The city purchasing division received two complete bids by the closing date. After careful evaluation by the fleet services division, it was determined that Engle Fabrication, LLC, was the best value for the cost. The city used this opportunity to refurbish two street flusher units in 2011 before they deteriorated to a level that made the trucks unusable.

In January 2012, Centerline Tank and Trailer Manufacturing offered to honor the same price as quoted in 2011 for the retrofit of unit 3857. Centerline Tank and Trailer Manufacturing is a business name for two tank and trailer building companies - Engle Fabrication of Sauk Centre and R-WAY Trailer Manufacturing of Long Prairie.

Requisition No. 12-0200
