Investigative interest is established when there is reasonable suspicion that a screen name or other potentially identifiable entity has committed a crime or that entity is engaged in a sequence of activities that is likely to result in the commission of a crime.

A *proactive investigation* is designed to identify, investigate and prosecute offenders that may or may not involve a specific target, and requires online interaction and a significant degree of pre-operative planning.

A *reactive investigation* involves the investigation of a complaint of a crime.

Reasonable suspicion is established when sufficient facts exist to lead a law enforcement officer to believe that an individual or organization is involved in a definable criminal activity.

Assuming the information is deemed credible, that determination should begin with an assessment of victim risk and should also consider other factors such as jurisdiction and known offender behavioral characteristics. This on-going quarterly report will be due within 30 days of the end of the quarter and does not replace either the semi-annual progress report required by the Office of Justice Program's Financial Guide, nor does it replace the Monthly Performance Measures Report (see 4.2.3 above).

5. Information Sharing

5.1 Conventional boundaries are virtually meaningless in the electronic world of the Internet and the usual constraints of time, place, and distance lose their relevance. These factors increase the possibility of ICAC agencies targeting one another, investigating the same subject, or inadvertently disrupting an ongoing investigation. To foster coordination, collaboration, and communication, each ICAC agency shall make every effort to deconflict all active investigations.

5.2 When a common target is identified, the agency should consider contacting other local, state, and federal agencies that may be involved in an investigation of the same target.

5.3 When transferring an ICAC investigation to another agency, the appropriate ICAC Commanders shall be notified that a referral has occurred.

**LIMITED OFFICIAL USE ONLY
LAW ENFORCEMENT SENSITIVE**

6. Victim Identification

6.1 Identifying child victims is a critical element of the ICAC Program. DOJ and OJJDP require all Task Forces and affiliates to submit child victim images to the Child Victim Identification Program (CVIP) as a means to improve child victim identification. Absent exigent circumstances, child victim images will be sent to the CVIP consistent with NCMEC guidelines. In addition, ICAC agencies are encouraged to collaborate with NCMEC to identify children depicted in unlawful images, contraband images, images depicting the sexual exploitation of minors.

6.2 A focus of the ICAC Program is to protect children. In circumstances where reporting of child abuse is not required under existing laws, ICAC agencies are strongly encouraged to report instances where a child may be at risk for abuse or exploitation.

6.3 Absent exigent circumstances, victim-identifying information should be protected from public disclosure.

6.4 Adhere to state and federal victimization notification and assistance laws. 7.

**LIMITED OFFICIAL USE ONLY

Community Education and Crime Prevention

7.1 Prevention education activities are a critical component of the OJJDP ICAC Program. ICAC agencies should foster awareness and provide practical, relevant guidance to children, parents, educators, librarians, and other individuals concerned about child safety issues.

7.2 Presentations to school staff, parents, and community groups are excellent ways to promote awareness. These presentations shall not depict identifiable victims, not otherwise in the public domain, nor shall they use pornographic or sexually explicit images. Presenters shall not discuss confidential investigative techniques.

7.3 No member of an ICAC Task Force may endorse any product or service without the express consent of an OJJDP Program Manager. While appearing at public presentations, ICAC members may indicate a preference for a product or service, but to avoid an implicit endorsement, such ICAC members should indicate adequate alternatives.

7.4 The materials and presentation should be consistent with the national ICAC goals as outlined below:

Purpose of the ICAC Program

The mission of the Internet Crimes Against Children (ICAC) Task Force program is to assist state and local law enforcement agencies in developing an effective response to cyber enticement and the production, possession, and distribution of unlawful images, contraband images, and images depicting the sexual exploitation of minors. This support encompasses forensic and investigative components, training and technical assistance, victim services, prevention and community education.

Background on the ICAC Program

The Internet Crimes Against Children (ICAC) program is a national network of 61 coordinated local task forces and nearly 3,000 local and regional affiliated agencies engaged in both proactive and reactive investigations, forensic examinations, effective prosecutions and community education. The ICAC Program was developed in response to the increasing number of children and teenagers using the Internet, the proliferation of unlawful images, contraband images, images depicting the sexual exploitation of minors, and the heightened online activity by predators searching for unsupervised contact with underage victims. By helping state and local law enforcement agencies develop effective and sustainable responses to online child victimization and unlawful images, contraband images, images depicting the sexual exploitation of minors, the ICAC program delivers national resources at the local level.

The ICAC program actively protects children who use the Internet by proactively investigating the online sexual exploitation of children by predators. Because ICAC practitioners understand that arrests alone cannot resolve the problem of on-line victimization, the ICAC program is dedicated to training law enforcement and educating parents and youth about the potential dangers online and offering safety tools.

8.2 Commanders and supervisors (or their designees) may speak to members of the media about their own departments' ICAC-related activities according to their own agency's guidelines. No individual affiliated with the ICAC program may speak on behalf of the ICAC Program as a whole.
