STATEMENT OF PURPOSE: This resolution begins the formal process of making assessable improvements to the 2013 street preservation project.

As provided for in Section 61 of the City Charter, the process can be commenced either by petition or by action of the city council itself. The latter route is being used in this case as the streets in question are in poor condition and have important functions to both the neighborhoods they serve and also to the city as

a whole.

As is normal, this resolution of intent is the first step in the process. Once approved it will trigger preparation of plans and specifications for the work and estimates of the costs and the assessments involved. Notices will be sent to the affected property owners, and they will be given the opportunity to be heard before the special assessment board. After the board makes its recommendation the matter will return to the city council for consideration of an ordering-in resolution.
