STATEMENT OF PURPOSE: This resolution amends Resolution 13-0042 by adding two omitted properties to those assessable improvements for construction of a sanitary sewer in Lawn Street. The properties originally designated as benefitting were 9221, 9229 and 9231 Lawn Street. They are currently served by a common private sanitary sewer service, which has failed.

On further review it was determined that 9237 and 9239 Lawn Street were also served by a private sewer line, albeit one different from that serving the other properties, and that the extension of the Lawn Street sewer would also benefit those properties, bringing them into compliance with the State Plumbing Code and providing them with a direct connection to a city sewer main. Therefore it is appropriate to assess their fair share of the construction cost of the new main against these properties also.
