Attorney

Approved:

Auditor

STATEMENT OF PURPOSE: This resolution approves the purchase of three (3) International Model 7500, 4x2 single axle dump truck cab and chassis units for street maintenance for \$281,256.47, payable from the capital equipment fund. After passage of this resolution, the department will submit a requisition for outfitting the trucks for service. (They anticipate that \$200,000 left in the capital equipment budget for this purpose will be sufficient.)

This purchase is based on Minnesota State Contract 60983, Release T-647(5). The new vehicles will replace two dump trucks - units 1693 and 3895 - and one permanent mount sander - unit 3354.

Historical information for trucks being replaced:

- (a) Units 1693 and 3354 - Unit 3354 is a 2001 Freightliner single axle truck outfitted as a permanent mount sand truck with front plow. Unit 1693 is also a 2001 Freightliner single axle truck outfitted with a dump body, insert sander, and front plow. Both trucks are in a deteriorated condition, have been in service for 12 years and far exceeded their original purchase price in maintenance and repairs. Both trucks have nearly 80,000 miles, and will be sold at auction when replacements are made.
- (b) Unit 3895 - Unit 3895 is a 1989 Ford F700 with a dump body that has been in service with street maintenance for 24 years. This vehicle will be replaced with a new International truck outfitted with a dump body, sander and plow, which is a more efficient use of equipment for year-round use in street maintenance operations. Unit 3895 will be sold at auction when the replacement is ready for service.
