Op Dates: From: 11/30/2012 To: 8/31/2014
Report Date: 2/7/2013

Executive Summary

Operation Stonegarden St. Louis County 2012 (OPSG-OO-St. Louis FY12) is a 24 month Category II Operation intended to augment enforcement operations in the Duluth Border Patrol Station (BPS) area of responsibility (AOR) by applying an integrated layered approach to border security. OPSG-OO-St. Louis FY12 will be focused on and near the international border and routes of egress from the border area and is designed to improve "border security and mitigate risk" within the Duluth AOR. Risk is defined by several factors to include but not limited to:

- Border security threats may originate from within and outside the U.S.
- The remoteness of Duluth's border area.
- Limited technology is available to monitor cross-border incursions in the Station's remote border zone.
- A primary transit corridor to the Central United States exists.
- The possibility that this transit corridor could be exploited by Transnational Criminal Organizations (TCO).
- The likelihood that threat elements will attempt to exploit these vulnerabilities in order to gain access to the Homeland.

The Duluth BPS will collaborate with the St. Louis County Sheriff's Office (SLC) and other state, local or tribal (SLT) law enforcement agencies to increase the presence of law enforcement personnel on and near the international border and on egress routes from the border, to enhance situational awareness and apply an integrated approach to address transnational criminal activity. Operation Stonegarden will support the Border Patrols Strategic Plan's three driving principles of Information, Integration and Rapid Response in order to mitigate risk within the Duluth AOR.

Effective partnerships and integration with participating agencies will assist the Border Patrol in identifying and mitigating its greatest risks utilizing gained information. This will allow for the deployment of the appropriate Rapid Response capability to address identified threats. The operation will increase the probability of identifying and addressing Transnational Criminal Organizations and transnational criminal activity through strong law enforcement partnerships and rapid response to cross-border related incidents.

I. SITUATION

A. General Situation:

The primary focus of the Duluth BPS is to secure the border using information, integration and rapid response in a risk-based manner. The Duluth BPS utilizes limited manpower to patrol a vast and diverse area. The station relies on strong partnerships with other law enforcement agencies, utilizing those partnerships as a force-multiplier. Operational elements will work together with other law enforcement partners to achieve a unity of purpose and maximize operational integration to achieve a holistic approach to border security.

Operation Stonegarden is intended to reinforce these partnerships, improve situational awareness, and increase law enforcement presence to achieve a greater capability to prevent, protect against, and respond to border related security issues and mitigate risks within the AOR. The success of Operation Stonegarden will be achieved through an integrated, layered approach to border security.

Participating SLT agency officials will be deployed to strategic patrol areas within Zone 33, Zone 71, Zone 38 and Zone 76 as designated by the Patrol Agent in Charge (PAIC) of the Duluth Station. Zone 33 is assigned to the International Falls Border Patrol Station; therefore, patrols and deployments in Zone 33 will be coordinated with the PAIC of International Falls. The Duluth Border Patrol Station is responsible for supplying back-up patrols in Zone 33.

Station Zones:

Border Zone 33

Border Zone 33 consists of 57 miles of remote international boundary on the Minnesota boundary with Canada and the Province of Ontario. Zone 33 stretches from the Lake County and Saint Louis County, Minnesota line to Crane Lake, Minnesota. This zone includes a seasonal Port of Entry and limited hour Port of Entry. The seasonal Port of Entry is located on Highway 169 just east of Ely, Minnesota and is closed during winter. A limited hour Port of Entry is located on Crane Lake and conducts inspections of boaters, small aircraft and snowmobiles. Although Border Zone 33 is located in the International Falls, Minnesota Border Patrol Station's AOR, the Duluth Border Patrol Station is responsible for supplying back-up patrols in the zone.

Transit Zone 71

Transit Zone 71 contains three main highway corridors leading from the Boundary Waters area; State Highway 61, Interstate 35, and U.S. Highways 2 and 53. The northern-most point of Interstate 35 terminates into the southern juncture of State Highway 61 in the City of Duluth. Highway 61 is the major north-south route exiting the Grand Marais AOR from Canada. Highway 53 exits the International Falls AOR into the Duluth AOR, and is also a direct route to/from Canada.

Transit Zone 38 (Port of Duluth/Superior)

Transit Zone 38 is the Seaway Port of Duluth/Superior. It could be considered a border zone because it is operated as a 24/7 Port of Entry as the largest seaport on the Great Lakes. During the shipping season, 1,000 or more commercial shipping vessels may arrive in the port. In past years, well over 300 of these vessels, dependent on worldwide economic and commodity factors, may be foreign flagged vessels - Canadian or overseas, some with special interest aliens as crewmen. During the summer season recreational boating is also a popular water sport.

Transit Zone 76

Transit Zone 76 is comprised of the western-most portion of Lake Superior and contains multiple marinas, private docks and safe harbors. Recreational and commercial vessels returning or arriving from Canada, or overseas, frequent the area. Many recreational water craft transit to and from Canada without any expectation or regard for CBP enforcement of the I-68 program.

B. Terrain/Weather:

The northern topography of Minnesota consists of gently rolling hills with thick conifer and hardwood forests surrounding the highways and waterways. January's average temperature is in the single digits F (-teens C). During summer, temperatures can climb to above 90 degrees F for several days (32 degrees C). Nighttime summer temperatures occasionally dip below freezing.

C. Criminal Element:

There has been no specific criminal threat identified with the operation order. However, the generalized vulnerabilities of the northern border exist due to the vast remote terrain. Transnational Criminal Organizations, such as outlaw motorcycle gangs, Asian drug trafficking organizations, and European crime groups identified by U.S. and Canadian authorities are known to be operating in the Great Lakes region. Therefore, SLT officers should expect to encounter activity at any time during the operation. Officers should be prepared to encounter undocumented and special interest aliens, smugglers of contraband, weapons of mass effect, and other federal law violators.

D. Friendly Forces:

Minnesota Agencies:

St. Louis County Sheriff's Office (SLC)
Phone: (218) 726-2340

Duluth Police Department, Duluth, MN (DPD)
Phone: (218) 727-8770

II. MISSION

The mission of OPSG-OO-St. Louis FY12 is to increase the presence of law enforcement personnel at or near the international boundary and routes of egress from the border area, thereby, enhancing situational awareness among participating agencies and ensuring a rapid, fluid response to emerging border-security conditions.

The operation will support the objectives of the Border Patrol Strategic Plan to improve "border security and mitigate risk", utilizing an integrated approach to address transnational criminal activity. Operation Stonegarden will be guided by the Border Patrols Strategic Plan's three driving principles of Information, Integration and Rapid Response.

This operation does not extend any Federal authority to participating law enforcement agencies to enforce Federal immigration or customs laws.

III. EXECUTION

A. Management/Supervisor Intent:

The intent of OPSG-OO-St. Louis FY12 is to identify and address Transnational Criminal Organizations and transnational criminal activity, increase law enforcement preparedness, enhance situational awareness and improve "border security and mitigate risk" at or near the international boundary and on routes of egress leading from the border.

This will be achieved by providing the "tools" to participating SLT agencies through operational overtime and equipment, thereby, enhancing the law enforcement presence in and around border and egress zones utilizing St. Louis County Sheriff's Office (SLC), Duluth Police Department (DPD), and Minnesota Department of Natural Resources (MNDNR) officers.

B. General Concept:

The general concept of OPSG-OO-St. Louis FY12 is to utilize officers from the SLC, DPD, and MNDNR to increase the law enforcement presence in border and egress zones. The implementation of this operation will enhance situational awareness and intelligence collection and dissemination within the Duluth BPS AOR.

- SLC consists of 150 fulltime Deputies.
- DPD consists of 152 fulltime Officers.
- MN-DNR consists of 11 fulltime Officers within the Duluth AOR.

Officers will be assigned to strategic locations within Zone 33, Zone 71, Zone 76, and Zone 38 increasing the probability of apprehending members of TCO's and subjects conducting transnational criminal activity through strong law enforcement partnerships and rapid response.

C. Specific Responsibilities:

1. The Duluth BPS will provide a pre-operation briefing to participating SLT agencies prior to the commencement of the operation.
2. Participating agencies will complete a bi-weekly overtime schedule one week in advance, or, as far in advance as is practical which will project the SLT officers involved in the operational overtime which will indicate the officers' names and overtime shifts to be performed. (Duluth BPS will provide further guidance)
3. Each respective agency will be responsible for the supervision of their participating officers.
4. Participating officials will notify Grand Forks Sector Dispatch (KAK-720) at 1-800-982-4077 at the beginning and ending of their OPSG overtime tour of duty.
5. Participating SLT officers can anticipate and will reasonably accommodate Border Patrol requests for Border Patrol Agents to conduct joint patrols in an SLT vehicle during OPSG overtime shifts.
6. Participating officials will contact the Duluth BPS through Grand Forks Sector dispatch at 1-800-982-4077 with regards to foreign nationals or suspicious activity with a Nexus to the International Boundary, TCO's, terrorism, and/or alien/narcotic smuggling.
7. Participating officials will provide the Duluth BPS a copy of any reports generated that are related to terrorism, alien or narcotic smuggling, and/or any incident with a nexus to the International Boundary.
8. Participating officials will complete an OPSG Daily Activity Report at the end of their OPSG overtime shift and e-mail a completed report to the Duluth BPS at OPSGDULUTH.cbp.dhs.gov.
9. In the event that a system connectivity issue arises, participating officers will fax a hard copy of the OPSG Daily Activity Report to the Duluth BPS at 218-720-5402.
10. Time sensitive information relating to border security shall be reported as soon as practical to the Duluth Border Patrol Office at 218-720-5465 or Grand Forks Sector dispatch (KAK-720) at 1-800-982-4077. Sector Dispatch will contact a Duluth agent and relay the information.
11. On duty Border Patrol Agents, Supervisory Border Patrol Agents, and the Duluth Station Lead Border Patrol Agent will be responsible for ensuring all actionable intelligence and encounter and arrest data is collected and reviewed.

Supervisory Border Patrol Agents and the station Lead Border Patrol Agent will coordinate the dissemination of pertinent intelligence during the operation to partnering agencies.

12. Duluth BPS will compile the OPSG shift reports into a Monthly Activity Report for the duration of OPSG and submit them to GFN.

13. The Integrated Planning Team will meet to discuss and determine the Tactical Operational Periods that will be conducted during this campaign. The IPT will determine the shift requirement and OPSG patrol focus based upon information, trends, intelligence, and general risk management within the Duluth BPS AOR. After Action reports will be completed after each Tactical Operational Period is concluded.

The IPT will meet and determine the coordinating instructions and agency responsibilities specific to the tactical operational periods that will be conducted during this campaign.
