 - * B. Maintain tools and equipment.
 - * C. Maintain records and prepare associated reports.
 - * D. Perform painting of interior and exterior surfaces of buildings and other structures.
 - E. Perform related tasks as assigned.

JOB REQUIREMENTS

Experience Requirements:

- † A. Successful completion of an accredited auto body repair and refinishing program plus one (1) year of related verifiable experience; OR three (3) years of verifiable experience as an auto body repair & refinishing technician, or as an industrial painter with experience repairing and refinishing motor vehicles.

Certification and License Requirements:

- † A. Ability to pass a medical evaluation for certification in the use of a supplied air system respirator.
- † B. Possession of a valid Minnesota Class B Commercial driver's license or privilege with airbrake endorsement by the date of appointment and thereafter.

Knowledge Requirements:

- † A. Extensive knowledge of the methods, materials, tools and equipment used in the industrial painting trade.

- † B. Knowledge of applicable OSHA AND MPCA standards.
- C. Knowledge of applicable MNOPS standards.
- † D. Knowledge of hazardous waste disposal methods.
- E. Basic knowledge of welding in order to weld light sheet metal using M.I.G. welder.
- † F. Knowledge of applicable safety standards and fire prevention methods.
- † G. Knowledge of the methods and practices of cleaning and maintaining painting equipment and supplies.

Skill Requirements:

- † A. Skill in planning work, including estimating time, materials, equipment and cost requirements.
- † B. Skill in the proper use of equipment and materials used in the painting industry.
- † C. Skill in the application of anti-corrosive treatments to iron and metals.
- † D. Skill in the operation of heavy equipment such as dump trucks, motor graders, front end loaders, plow trucks, forklifts, scissor lifts, JLG's and overhead cranes.

Ability Requirements:

- † A. Ability to match colors and shades of paint.
- † B. Ability to read and interpret technical manuals, product guides, and material safety data sheets.
- † C. Ability to read and understand policy and procedure manuals.
- † D. Ability to understand and apply MNOPS, OSHA, and MPCA rules and regulations applicable to painting.
- † E. Ability maintain accurate records and prepare reports.
- † F. Ability to use good judgment and to work independently.
- † G. Ability to establish and maintain effective working relationships with supervisors, co-workers, and the general public.
- † H. Ability to erect, dismantle and work from scaffolds in accordance with safety standards.
- † I. Ability to climb, balance, and work at heights.
- † J. Ability to work in confined spaces.
- † K. Ability to work for extended periods while wearing a respirator.
- † L. Ability to work in environments with exposure to toxic materials, dust, and fumes.
- † M. Ability to frequently stoop, kneel, crouch and reach; and to occasionally recline, push and pull while carrying out painting tasks.
- † N. Ability to frequently lift and carry painting equipment and supplies weighing up to 50 pounds, and to occasionally lift with assistance items weighing up to 100 pounds.
- † O. Ability to attend work on a regular basis.

Other Requirements:

- † A. Subject to periodic random drug testing as required by the Federal D.O.T. and Pipeline Safety Regulations Part 199.

*Essential functions of the position

†Job requirements necessary on the first day of employment
