January 9, 2012

Dear Trucking Contractor:

We would like to inform you that as of January 1, 2012 the fees for a City of Duluth transportation (oversized load) permit have increased. The cost of a single-trip permit is now \$30, and the cost of a seasonal permit is now \$100. This is the first time in many years that these fees have been increased.

Additionally, any trips that involve crossing the Aerial Lift Bridge will have a fracture-critical bridge surcharge (minimum \$300, plus \$150 per hour for any review time greater than 2 hours) attached. If you will be hauling an oversized load onto or off of Park Point it is important that you contact the Engineering Division at 218-730-5200 well ahead of schedule for review of your permit application.

The procedure for applying for an oversized load permit has not changed. Enclosed is an updated application form with the new permit fees. To apply for a permit, fill out the form completely and fax it to the Engineering Division at 218-730-5907. Upon approval the form will be assigned a permit number, signed by an authorized individual, and returned to you by fax or by email as a PDF attachment. Fees should be paid by a check made out to the City of Duluth, and should be mailed to the Engineering Division as soon as possible once the permit has been issued.

Please don't hesitate to contact me if you have any questions regarding this.

Sincerely,

Steve Goman
Senior Engineering Specialist
