STATEMENT OF PURPOSE: This resolution begins the formal process of making assessable improvements to the water supply system serving properties on Livingston Avenue to replace temporary private water services with a public main and new services, and connecting the new services to the new main. As provided

for in Section 61 of the City Charter, the process can be commenced either by petition or by action of the city council itself. The later route is being used in this case in the interest of time. The three properties involved have never paid assessments for water main service.

This resolution of intent is the first step in the process. Notices will then be sent to the affected property owners, and they will be given the opportunity to be heard before the special assessment board. After the board makes its recommendations the matter will return to the city council for consideration of an ordering-in resolution.
