

vs.

NEW BUILDING of similar size

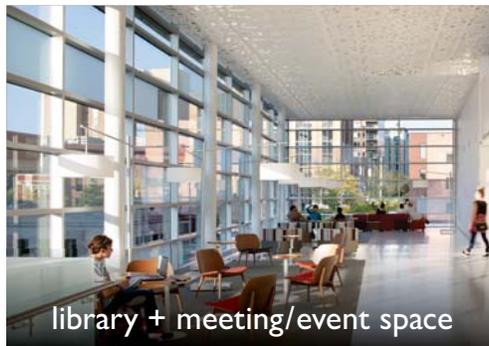

Option C = \$34,700,000

Build new main library of similar size on existing site.

- Blank slate for optimizing current and future services and flexibility.
- Designed with energy efficiency in mind for lower long-term costs.
- Small increase in size (7,500 square-feet total) from current main library (72,300 square-feet), but with added meeting rooms, café, and event space potential.
- Strong outdoor-indoor connection.
- Building would be designed to be flexible in layout to facilitate future changes.
- The addition of dedicated library patron parking could be included at \$30,000/space.
