

GETTING STARTED with your 121 Benefits Debit Card

The “Benefit Card” is a prepaid benefits card that uses tax-free dollars from your Flexible Spending Account (FSA) for out-of-pocket expenses.

Here are **3** things to remember about your Benefit Card.

1

Fast Facts

The Benefit Card is preloaded each year with your annual FSA election amount.

You don't have to file a claim and wait for reimbursement.

(However, remember to keep all receipts for documentation requests.)

2

Eligible Expenses

Use your Benefit Card for eligible expenses at the medical or dental office, hospital and medical laboratories, participating pharmacies or retail stores, and the FSA store.

3

IRS Requirements

Keep your itemized receipts in case verification is necessary as required by the IRS.

Some expenses require substantiation. Some examples are co-payment for a spouse plan, dental services, and vision services such as eyeglasses.
